

# StationXpress

## More than 500 stations use StationXpress to connect with their reps

Stations like using the Web-based StationXpress application to:

- Electronically review, return and approve orders and revisions
- Eliminate faxing – no paper, no delays, no missing documents
- View all orders in one central inbox
- Track all communication with national sales
- Electronically transfer orders to traffic system using electronic contracting (EC)
- See at-a-glance totals for orders in different approval states (confirmed, returned, revised)

### Get training

MediaOcean has created a secure environment where stations can obtain recorded training modules for the Reppak-to-StationXpress and MediaOcean-to-StationXpress workflows. This self-paced, online course is designed to be accessed at your convenience.

Stations receive one live training session (via WebEx) from DDS MediaOcean before going live on StationXpress. This training session is also recorded and can be reviewed as a refresher course or used for new hires.

### **ASK YOUR REP FOR YOUR PASSWORD TODAY!**

To access this secure website, ask your rep system administrator for your station's unique Web ID and password. Passwords expire 30 days after they are activated.

Once you receive your Web ID and password, access the site at
